

Homework 3

Problem 1

a) Remember the subproblem command, and as always

Answer

Feel free to write your answers in frames!

You should have **5** subproblem answers for this section.

CS1820 - Homework 3

Problem 2

You should have **5** subproblem answers (1 for the ARG, 4 for the questions) for this section. If you choose to do the bonus, you'll have **6**. See question 3 below for an example of an ARG in LaTeX, but we absolutely don't expect you to draw your tree online! To insert images, remember that you can do the following:

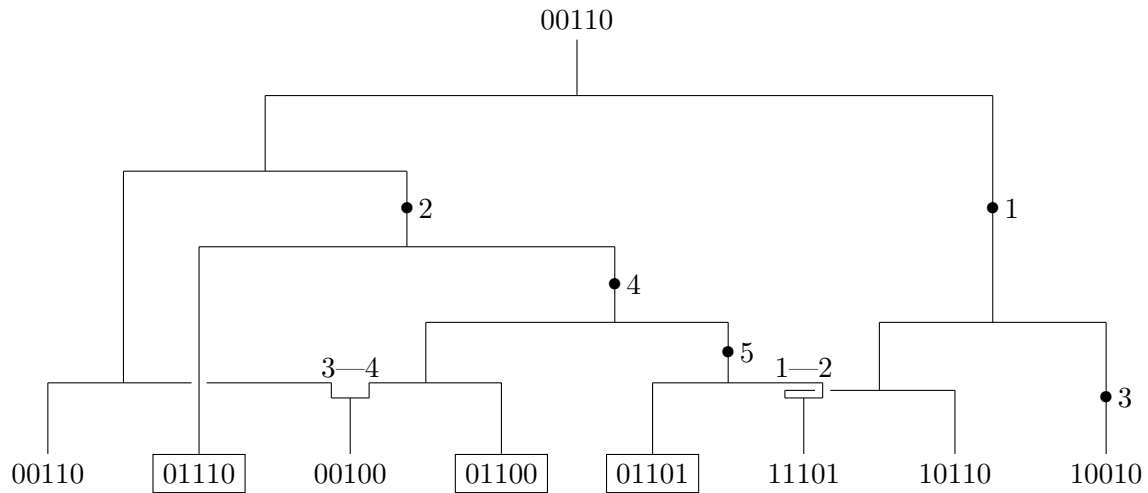

Figure 1: Cute penguin!

CS1820 - Homework 3

Problem 3

Here is the source code for the ARG given in the problem. Feel free to make your marginal trees based on this code, or draw them offline.

You should have **5** subproblem answers for this question.
